1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.

Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action. In claim 1, "correlating the inputted product" has been changed to ---correlating inputted product--- without appropriate markings.

In claim 49:

"inputting product quality control measurement data from a plurality of measurement devices, and at least partially correlating inputted product quality control measurement data to the information relating to the at least one part and the information relating to the at least one field"

has been changed to:

---automatically inputting product quality control measurement data regarding a possible part defect from a plurality of measurement devices, and at least partially correlating inputted product quality control measurement data regarding a possible product defect to the information relating to the at least one part and the information relating to the at least one field---

while the previous version of claim 49 recites:

"inputting product quality control measurement data from a plurality of measurement devices, wherein the inputted product quality control measurement data is at least partially correlated to the information relating to the at least one part and the information relating to the at least one field".

Claims 50-52 and 58 contain discrepancies similar to that of claim 49.

Claim 56 includes markings to add "a" before several recitations of "predetermined target", however, these amendments were already made in the previous amendment filed January 11, 2007.

In claim 61, lines 4-5, "wherein the inputted" has been changed to ---wherein inputted--- without appropriate markings.

A handwritten signature in black ink, appearing to read "J. R. White", is located in the lower right quadrant of the page.
